# CILURZO

**FUMÉ BLANC**  
(Dry Sauvignon Blanc)

*Temecula, California*

Produced and Bottled by Cilurzo Vineyard & Winery  
Temecula, California      Alcohol 12% by Volume

## 1981 FUMÉ BLANC

(Dry Sauvignon Blanc)

The small family owned and operated Cilurzo Vineyard & Winery is located in the exciting new Southern California wine-growing region of Temecula. Warm breezy days and cool dry nights make this unique micro-climate well suited for the production of premium varietal wine grapes.

This Fumé Blanc was made from Sauvignon Blanc premium varietal wine grapes grown in Temecula. Following a slow, cold fermentation this wine was aged in small French oak barrels to give it added depth and complexity. Although this Fumé Blanc is ready to drink now it will benefit from further bottle aging. It is a beautifully well rounded wine from "nose" to finish. We are very pleased with this our first Fumé Blanc and hope it brings you much pleasure.

Much tender loving care goes into the vinifying of all our wines naturally in the style of the old country. Visit our winery or write and tell us how you like our Fumé Blanc.

*Vincenzo Cilurzo*
